

# Avalon Aviary's Available Baby Birds

Updated 3/5/24

Caiques - Ages: 9 months and 4 months

We have 3 babies available for new homes. 1 male & 1 female that are 8 months and a 4 month old whose sexing is pending.

Caiques are curious, busy, clown birds who need hours of time to play and interact!

Green Cheek Conures - Age: 2 mo

These Yellow Sided colored babies are still being hand fed but are available for deposits.

Both are DNA sex confirmed females.

Hatched: 12/19/23 and 12/21/23

Updated 3/5/24

Budgie Parakeet - 4 months

1 handfed baby who is weaned and ready for a new home.

She will be much easier to train due to being hand raised but has been alone since her siblings sold, so she is a little more nervous than she once was.

Hatched: 10/23/23

Green Winged Macaw - F - Age: 1 year

We have 1 female Macaw, hand fed, weaned, and raised here at Avalon. She hatched 6/3/22.

She is playful, talkative, and loves to fly and exercise. Lots of wood toys needed, as she loves to play with them!

Cockatiels - Age: 2 months

We have 4 handfed baby Cockatiels still available.

2 weaned males hatched 12/19/23 and 12/21/23

2 unweaned females available for deposits hatched 12/55/23 and 12/26/23

## VALUE: What Do You Get with an Avalon Aviary Bird?

Pre-purchase interview - Know what you are getting into; get the right bird for you.

Naturally hand-fed and abundance-weaned; secure babies have not been force-weaned or tube-fed. Proper psychological relationship with food.

DNA sexing included (unless sexually dimorphic or tiny species: budgies):  
Know the sex of your bird – it is important to know for health reasons.

Exceptional book at our cost (for conures and larger); Knowledge at your fingertips, 24x7.

A decorative border of tropical leaves in purple, yellow, and teal surrounds the text. The leaves include large monstera leaves and smaller palm-like fronds.
