Buddy - M - Miligold Macaw - Age: 31

I've been looking for my person for a while. Sometimes I come off as cranky, but really I'm just anxious. If you have a Walnut I might trust you. 80's music is my jam, if you dance to it with me, I'll come out of my shell. Macaw experience is a must, I've been through a lot!

Maggie - F - Green Wing Macaw - Age: 30

Maggie has a lot of history we don't know about and came to us pretty shy, nervous, and withdrawn. She has done so well coming out of her shell and now happily accepts head scratches and steps up to come out and play with people she trusts.

Edgar Degas (named after a painter) is actually a female Blue and Gold, who we lovingly call "Ed-Girl" as well. She loves attention, coming out of her cage, nuts, little puzzle boxes with treats, and being around people she enjoys. She talks and quacks too!
