Winston – Blue Fronted Amazon

Winston is 10 years old male. He is so charming. He is a fairly quiet amazon and will sit on the playstand and chew toys. We transitioned him to a good diet, he is now ready for his new home. He talks a little and makes lots of sounds. He occasionally bites.
\$1000

Babette -Green Winged Macaw

At 28 years old, Babette is in her prime. Her owner passed away. She is a lovely, engaging bird who knows her mind. She talks and plays and adores preening toys. She is outgoing and self-confident and has the softest feathers ever. Babette either instantly likes you or instantly does not (only a few people). She is a very engaging bird who wants a home of her own! She talks a bit, saying such things as “Want some!” and “Come here!” There are two serious rules for success with Babette: 1) If she hates you, it is instant and forever. 2) She cannot be allowed to have a person as her mate-substitute. Not difficult rules! **\$1500**

Natasha -Green Winged Macaw

Huge beautiful female, feather-perfect. I acquired Tasha from another breeder in 2006. Tasha is curious about people and steps up on your arm to come out of her cage. Natasha also talks. She is a sweet girl. She really enjoys being out on the playstand and hanging out with the other greenwings. **\$1500**

Puff – Meyers Parrot

Puff is 8 years old. He came to me as individual bird from another breeder who had rescued him from Petsmart. He is curious about people but would need to be tamed to be a pet.

\$450

Coffee – Cape Parrot

Was with a very poor breeder where he picked himself. We handle him, steps up on towel, can handle outside of cage, talks, calm and easy

\$1600

Zebra Finches

Juveniles and Pairs

\$25 each

Canaries

Spanish Timbrado Canaries – Males, Females and Pairs

Males \$120

Females \$110

Pairs \$200
