

Avalon Aviary's Available Baby Birds

Updated 5/12/21

Green Wing Macaw - Hatched 3/23/21

We are awaiting DNA sexing results on our 3rd Green Winged Macaw baby of the year. If it's a she, she will have a home. If it's a he, he will be available. We are pretty sure there are more eggs in the Green Winged's nest.

Green Cheek Conures - Hatched late March

Our adorable Pineapple and Standard Green Cheek Conure babies are most likely already sold. We have a handful of deposits and assume that at least 3 of them will be ready to purchase. Mom and dad Green Cheek are back in the nest though!
